

Abra a plataforma Visual Studio

Tela de Inicio

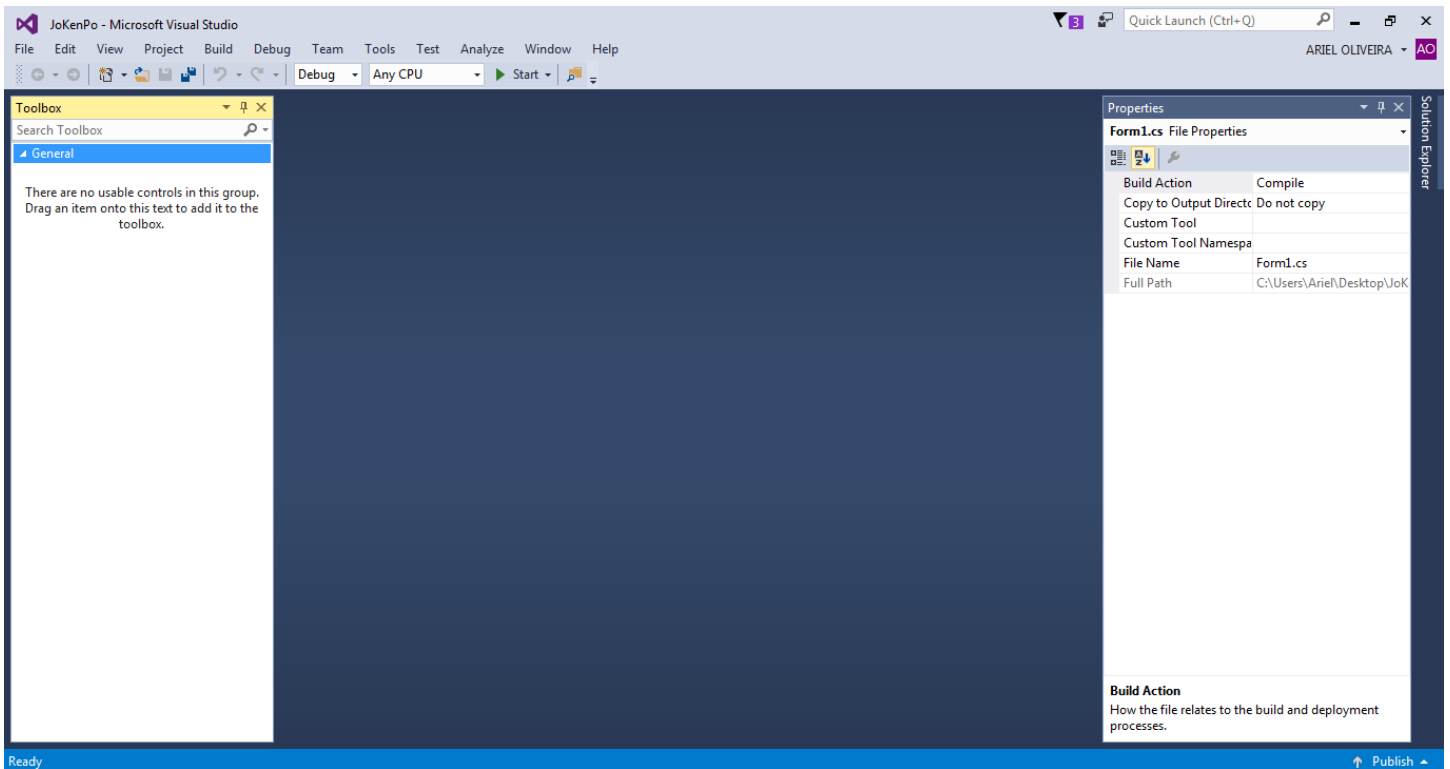

Na aba File > Open > File...

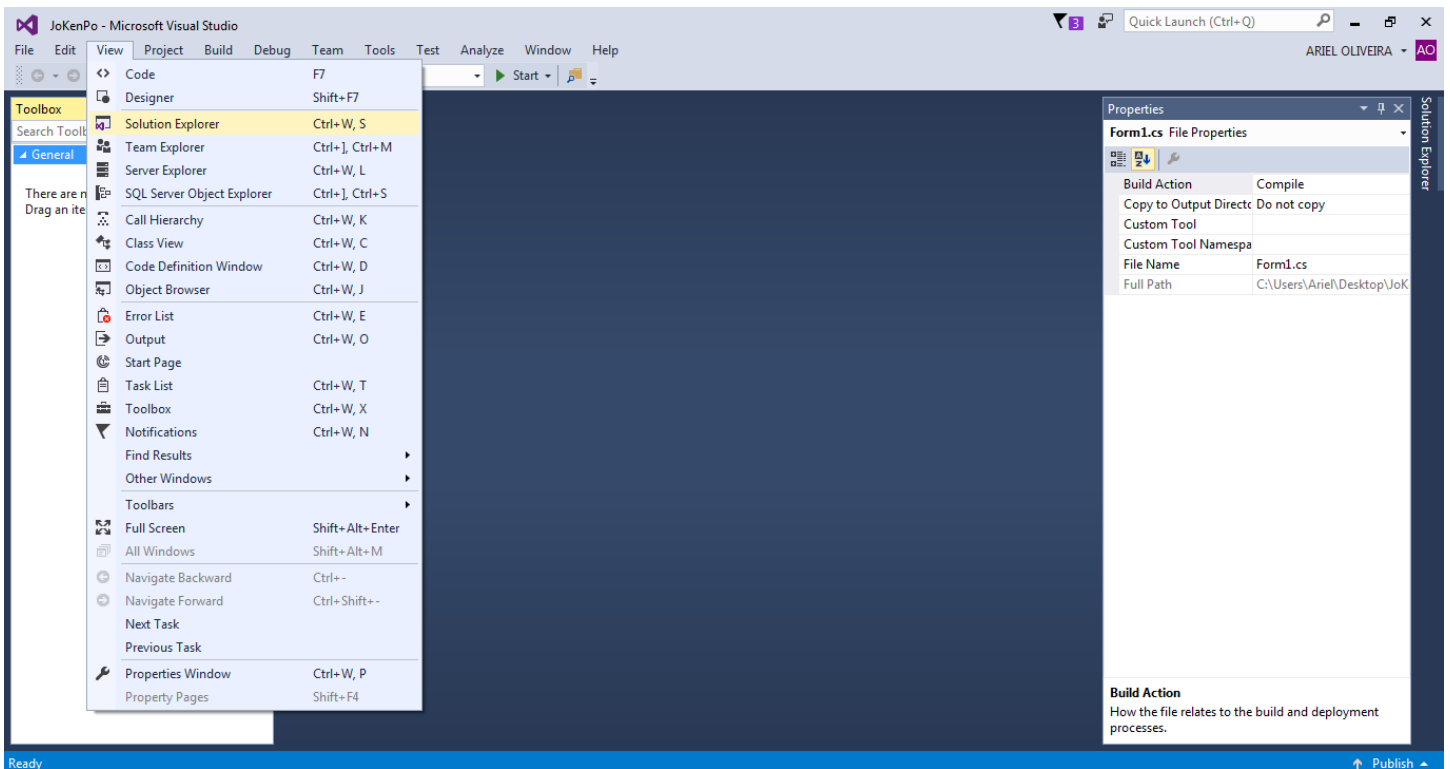

Selecione o projeto JoKenPo.sln na pasta principal

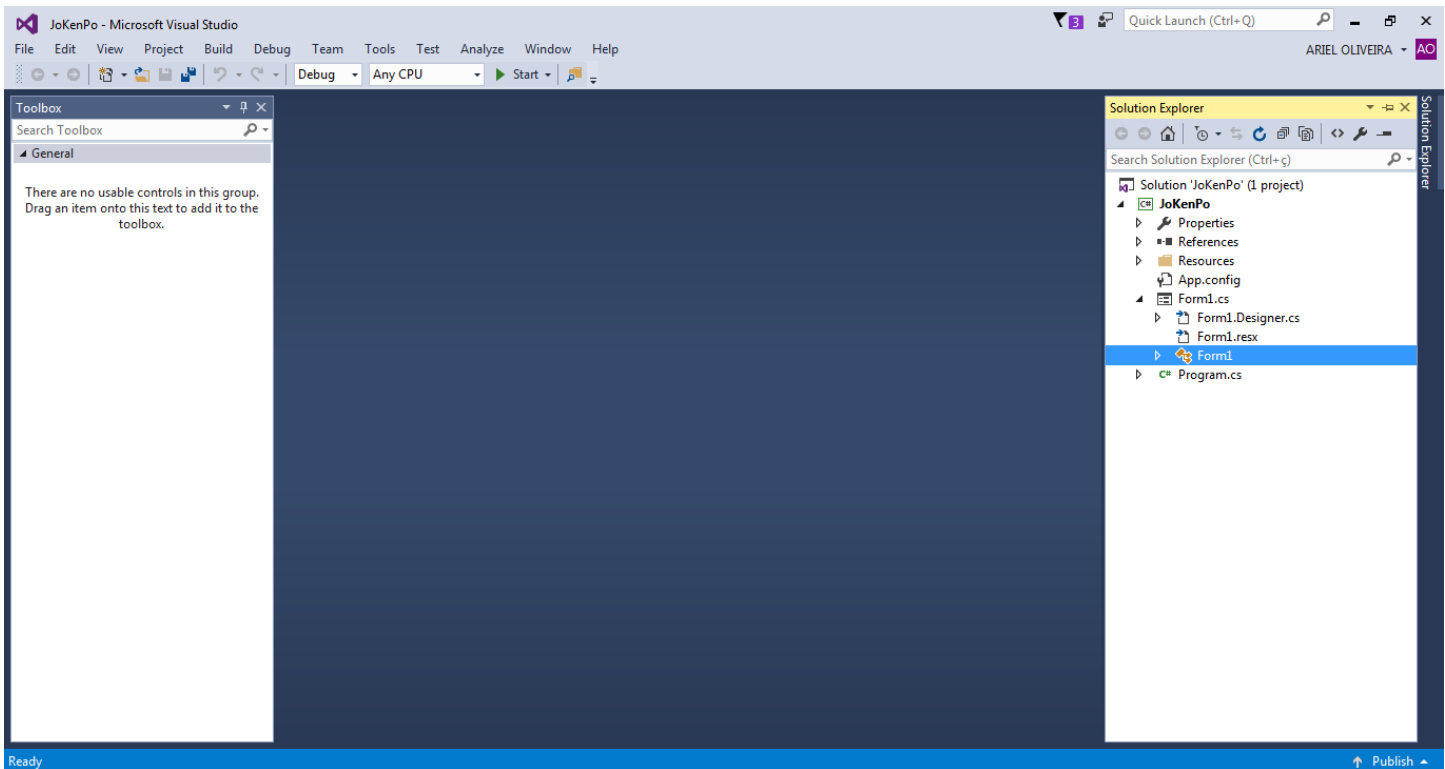

Abra o mesmo

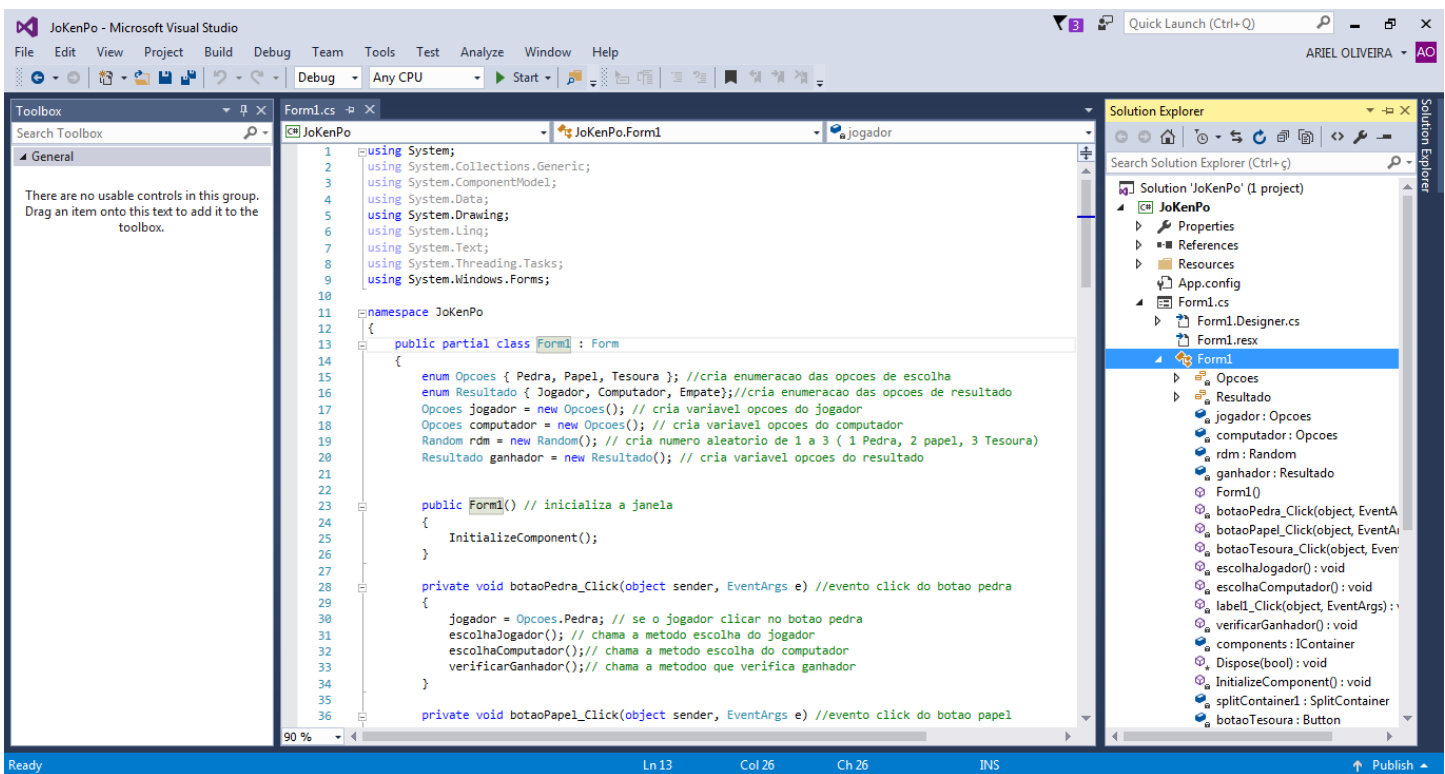

Tela após aberto

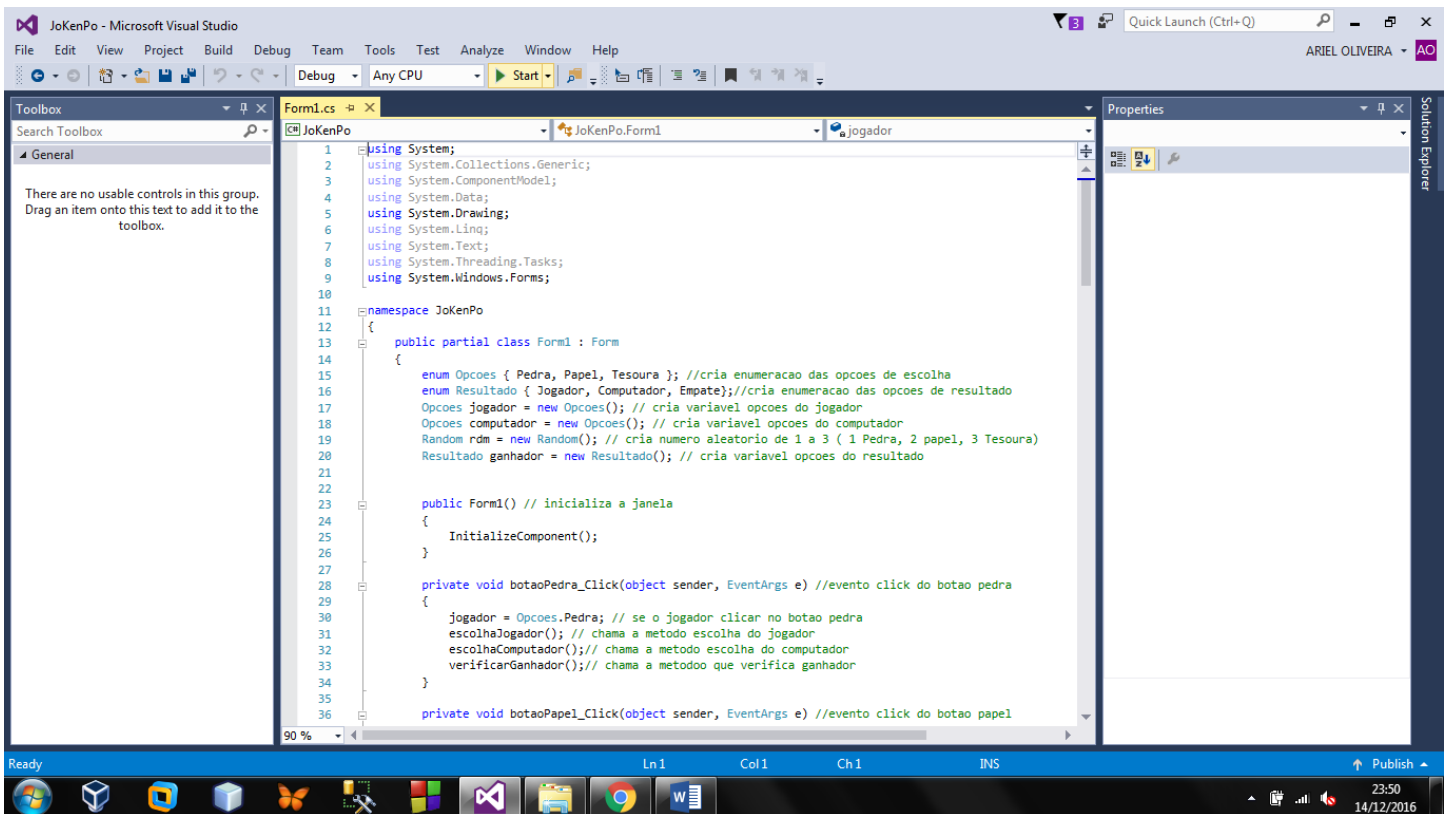

Na aba View selecione Solution Explorer que ira abrir uma aba no canto direito da tela

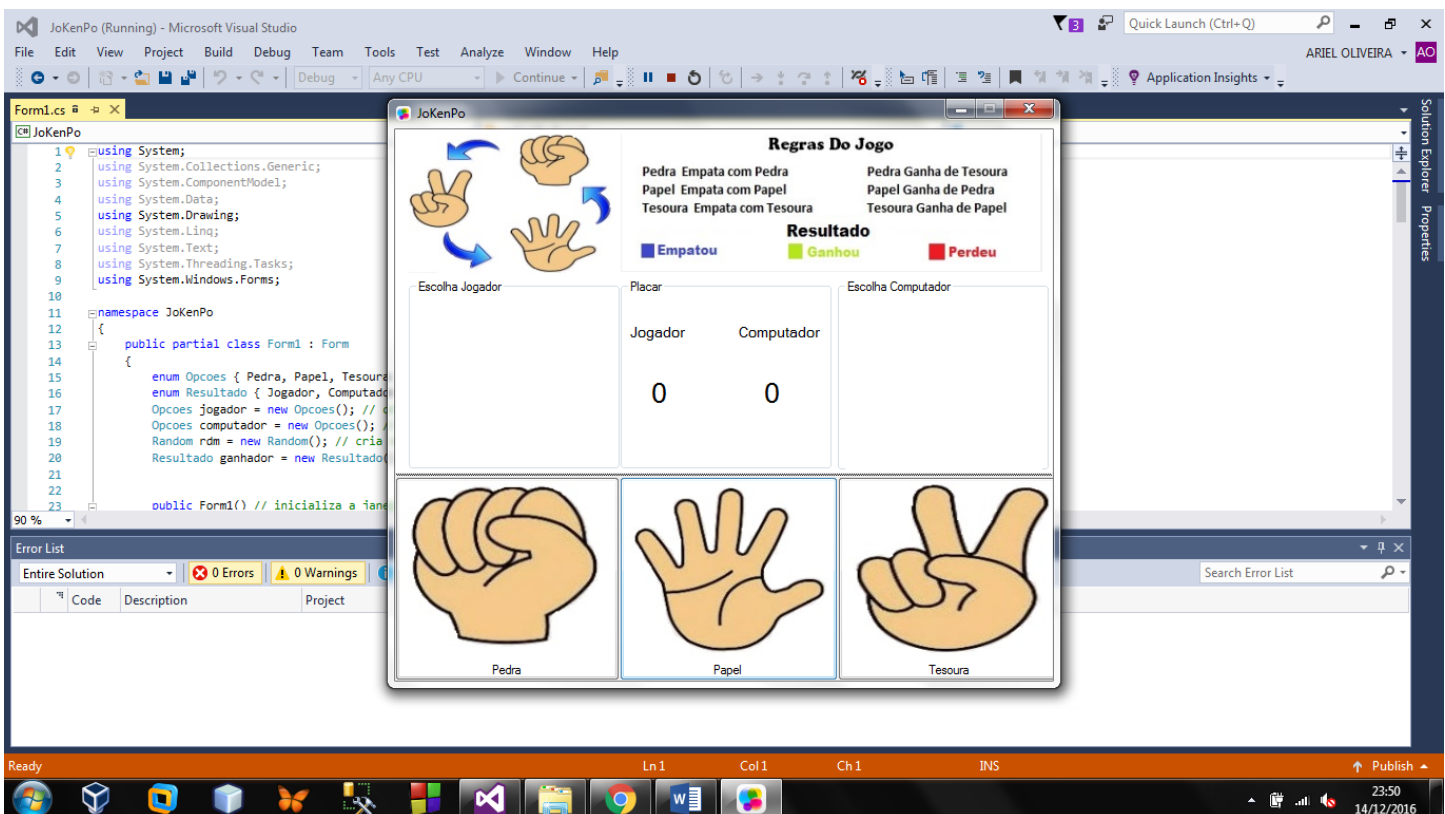

Na aba Solution Explorer > JoKenPo>Form.cs, de dois cliques em Form1 para abrir o código principal

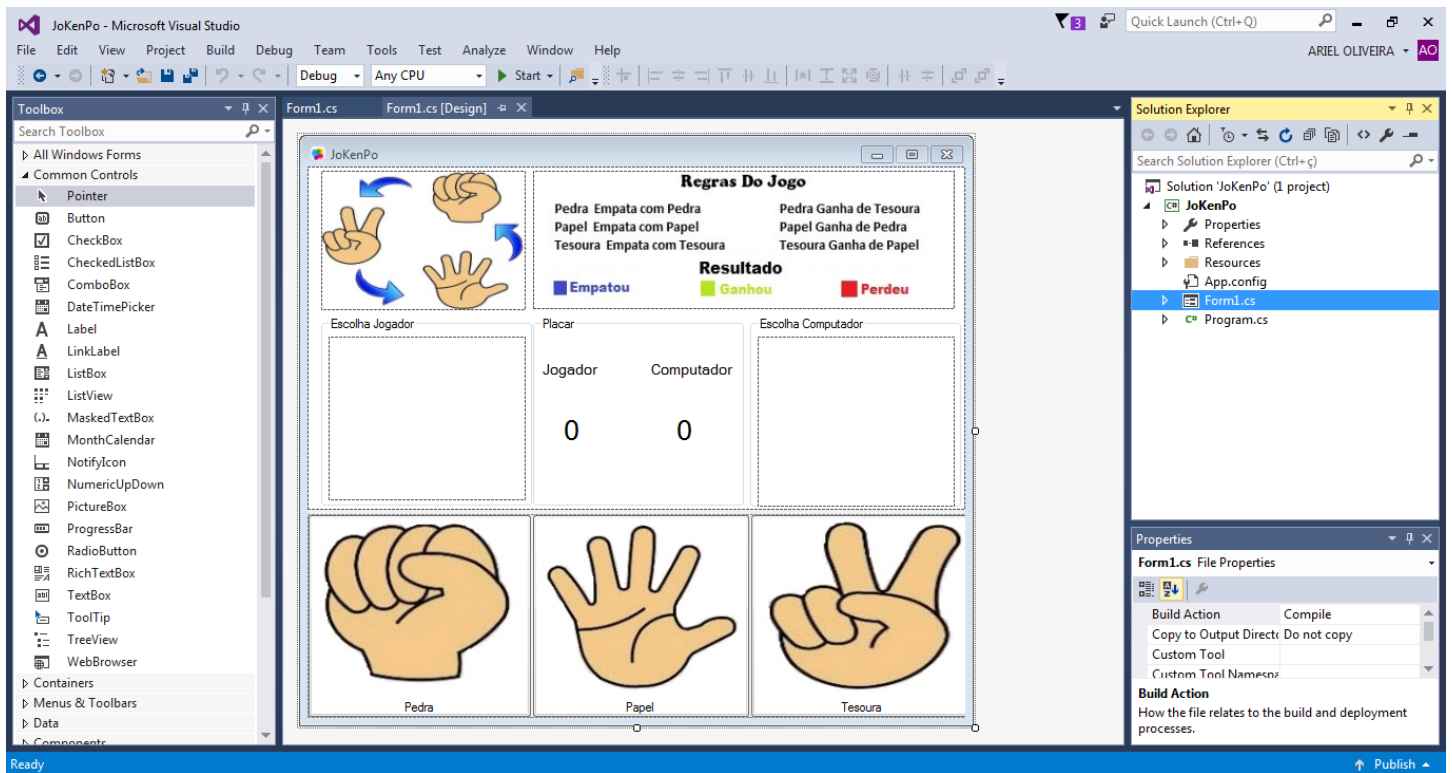

O código será exibido

Ao clicar em star no centro superior da aba de ferramentas o programa é executado e uma tela de teste é aberta

Tela do jogo para teste

Para visual o layout da tela basta dar dois cliques em Form1.cs
